

Do not replace KLOVE in my listening area with a LPFM.
KLOVE provides our community family friendly program that would not be guaranteed if you made this change. There are no other stations like this in our area. I will discontinue listening to radio, because I will not be able to find a suitable station for my 10 year old son to listen to. Having listener-supported Christian radio is important to our community and our children. Please do not allow LPFM stations to take priority over KLOVE.
